OVERVIEW and PURPOSE

The District Administrators Leadership Academy (DALA) is a comprehensive professional learning experience focused on empowering central office educational leaders with the skills and strategies necessary for driving systemic improvements within their districts. A focus on cultivating a learning culture and refining district processes including a commitment to sustainable growth and development will drive the networking discussions. An online leadership coaching component for each participant and facilitator will occur between each session and adds a valuable layer of personalized support and guidance in DALA. This individualized approach can help leaders navigate challenges, refine their leadership style, and maximize their impact within their respective districts.

SESSIONS WILL INCLUDE:

- Applying Strategic Approaches and Collaborative Efforts
- Developing Comprehensive Leadership in Education
- Fostering a Community of Leaders
- Advancing Educational Outcomes
- Effecting Positive Change
- Driving Continuous Improvement
