

Digital by Design

● ● ● N2 Learning

a collaboration with Alan November

creating and sustaining a digital, empowered, fearless learning culture

Digital by Design (DxD) is created by N2 Learning (N2) in collaboration with Alan November to guide teams of educators through a process to promote a learning culture that focuses on high-quality student work. District and/or campus teams are challenged to develop a cohesive plan for creating and sustaining a digital, empowered, fearless learning culture and advance the leadership skills necessary to sustain transformation. N2's team of expert facilitators guide work, while Alan November offers thinking challenges, inspiration, and one-on-one feedback to each team.

SESSIONS OVERVIEW

Session 1: Why?

On day 1, N2 will guide teams through an exploration of why creating and sustaining a digital, empowered, fearless learning culture that focuses on high-quality student work is critical. On day 2, Alan November will discuss innovative leadership and technology integration. Teams will be challenged to pilot ideas before session 2.

Session 2: How?

During this 2-day session N2 will guide teams through the creation of a clear vision and cohesive plan for creating and sustaining a digital, empowered, fearless learning culture that focuses on high-quality student work. Some of the world's best leadership and application examples will be discussed. Teams will share work in order to receive feedback and provide inspiration. They will be challenged to continue to pilot ideas and complete draft plans before session 3.

Session 3: Now What?

On day 1, Alan November will guide teams through a discussion of the importance of measurable indicators and evidence, and work with individual teams to review plans and provide feedback. On day 2, N2 will work with teams to develop measurable indicators and evidence for assessing the success of their vision and cohesive plan. Throughout the session, leadership support skills will be discussed.

DISTRICT/CAMPUS TEAM COMPOSITION

- Teams may be made up of district and/or campus administrators and teacher leaders
- Recommend at least 1 district administrator, 1 campus administrator, 1 technology specialist, and 1 teacher leader on each team
